Revision 3	For Fresh & Go Aligner and Retainer Cleaning Tablets	

Instructions for Use (IFU) Fresh & Go Aligner and Retainer Cleaning Tablets

Product Description and Intended Use:

This is a product intended for cleaning a medical device (an orthodontic appliance) but not for disinfecting or sterilising. The claimed action is to help maintain the clarity of the appliance, keep the appliance fresh and help remove stains. The tablet has a cool mint flavour. The users would be wearers of dental/orthodontic appliances, therefore this demographic would be pre-adolescents, adolescents and adults.

REF	DEVICE DESCRIPTION (TRADE NAMES)

Revision 3	For Fresh & Go Aligner and Retainer Cleaning Tablets	

Storage and Disposal:

Store in a cool and dry place. Discard solution after one use and dispose of tablets and solution in accordance with local regulations.

Performance Characteristics and Clinical Benefit:

The clinical benefit of the subject device is demonstrated by its performance in cleaning the dental/orthodontic appliance.

Warnings:

Do not use if you are sensitive to any of the ingredients. Keep out of reach of children. Do not swallow/place in mouth, the tablet or the solution. Harmful if inhaled. Avoid contact with eyes. If solution/tablet makes contact with eyes rinse thoroughly with water. Avoid excessive skin contact. Immediately seek medical advice if severe irritation develops and/or tablet or solution is ingested. Discard cleaning solution after one use. Dispose of tablets and solution in accordance with local regulations. Do not mix with any other cleaners.

Contraindications:

This product is contraindicated for any individuals with allergies to the listed ingredients. Not to be used on any appliances other than those indicated for use. Not to be used directly on the appliance without diluting it in the specified amount of water.

Reporting Serious Incidents:

Any serious incident that has occurred in relation to use of this product should be reported without undue delay to Ortho-Care and the competent authority for the country in which the incident occurred.

Ingredients:
